

**SECT 230 TC**

**The intelligent portion cutter with powerful product in-feed**

The Sect 230 TC is a highly flexible portion cutting machine. With its servo-controlled product feed and smart control system, it is possible to portion the product into groups with the consistently identical or at choice varying slice thickness. First-cut control and batching options are other functions that guarantee and optimize yield. The integrated discharge conveyor enables simple and swift product handling after slicing.
