BABYDROP

COOKIE DEPOSITOR

Designed to be the smallest and most versatile machine for the production of cookies and pastry products, the BABYDROP has the main purpose of satisfying the most refined and demanding pastry workshops. The reliability of MIMAC ITALIA S.r.l. technology and the usual attentive care for a functional design are combined in a manufacturing project which allows to suit to all potential customers' requirements in advance. Let your fancy free, MIMAC thinks about the rest.

The control panel with its Touch Screen display is intuitive, functional and very easy to use.

A very wide range of nozzles and moulds allows the realization of products of different shapes and sizes, leaving wide space for the creativity and fantasy of the user.
