

Spray-Master AM-20-M

Mobile hand spray unit for all release agents

Technical data

Max. Operating pressure:	6 bar, oil-free
Working pressure:	0,1 - 0,5 bar
Filling volume:	19.5 litres
Height:	1430 mm
Width:	530 mm
Depth:	475 mm
Weight:	28 kg

Permanent compressed-air connection required

GB

Features

Mobile hand spray unit

low space requirement, flexible use

Adjustable material and spray pressure

optimum spray pattern, saves raw materials

Continuous quantity adjustment

for all release agents, no change of nozzle

Airmix method / low-pressure

processing of all known viscosities, nearly mist-free dispersion with precise dosage

Gun with air quantity adjustment

spray pressure can be adjusted directly at gun

DÜBÖR professional hand gun

very user-friendly in long-term operation

Handling

very easy to use
